## ACHIEVEMENTS

- 3 \* at Codechef.
- 4 \* at Hackerrank in Java
- 500+ solve basic and medium level problems at GFG
- 250+ solve easy problems at Leetcode.

## CERTIFICATIONS

- Java Programing with Great Learning and also got the Master class of Java on Alison website.
- SQL(Basic) with Hackerrank.
- Offline training Rubicon Communication skills.

## ABOUT ME

Dedicated and detail-oriented, Problem Solver. During my educational career, I have grown my knowledge of **Java**, **Oops**, & built **desktop & web applications** as well as solved **coding problems**. I have implemented skills and knowledge on various projects. I am exploring new technical concepts & utilize the same in a productive manner.

## CODING SKILLS

- **LANGUAGE – JAVA**
- Data Structure & Algorithm
- **FRONTEND KNOWLEDGE – HTML 5, CSS 3**  
basic knowledge of Java Script, Bootstraps
- **Backend knowledge –** basics PHP, SQL

## ACADEMICS PROJECTS

### Chat Application for two way communication

*Desktop Application using Java Programming*

- Java Programming project which help with Swing, Java FX, AWT.
- Net, JFrame, Threading and Networking(Socket, Socket Server)
- We can easily send messages to each other.

### Three-D Chess Game

*Web based Application*

- Web 3-D Chess Game using HTML, CSS, JS.
- We can play computer with and each other

### Advance Student management Software

*Desktop Application*

- I work in this project was coding and project structure design.
- Software is manage like Students admissions, submit fees, description of faculty, student, attendance, find holidays, search by QR code etc. features.

## TECHNICAL EXPERIENCE

### Java Development at CodeClause

*INTERNSHIP*

- I have completed three tasks in this internship.
- I have created software Stop Watch, Music streaming software, payment gateway
